HALF MASKS POLIMASK 2000

# Polimask® Beta

Half mask in EPDM rubber for use with two Sèkur filters series 200.

## DESCRIPTION

- One size rubber half mask complying with **EN 140**. The Polimask Beta is made for operation with two synthetic resin filters of the 200 series including:
  - Particulate filters class P2 and P3.
  - Gas filters of class 1.
  - Combined filters class 1-P3.

## MAIN FEATURES

- Adaptability to any kind of face with a good sealing ability (approximately 0.5% leakage).
- Low breathing resistance (< 1,2 mbar during inhalation, < 2 mbar during exhalation, at a rate of 160 l/min).
- Easy donning and doffing.
- Easy maintenance, washing and disinfection.
- Compatibility with the use of glasses and goggles.

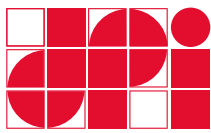

Elastic textile harness system that does not capture the hair, combined with soft resin elements synthetic that ensure a stable positioning on the neck.

Large internal sealing flap that allows a perfect adaptability to the face and an excellent seal.

Body mask in EPDM or silicone rubber.

Fitting with filters Series 200
