HALF MASKS POLIMASK 2000

Polimask® Gamma

Half mask in EPDM or Silicone rubber for use with one Sèkur filter series 230.

DESCRIPTION

One size half mask complying with **EN 140**.

Suitable for use with a single synthetic resin filter of the 230 series which includes:

- Class P2 and P3 particulate filters,
- Class 1 and 2 gas filters,
- Combined filters in the above mentioned classes.

MAIN FEATURES

- Adaptability to any kind of face with a good sealing ability (approximately 0.5% leakage).
- Low breathing resistance (< 1,2 mbar during inhalation, < 2 mbar during exhalation, at a rate of 160 l/min).
- The component materials are not likely to cause allergies or irritations.
- Easy donning and doffing.
- Easy maintenance, washing and disinfection.
- Compatibility with the use of glasses and goggles.

Elastic textile harness system that does not capture the hair, combined with soft resin elements synthetic that ensure a stable positioning on the neck.

Body mask in EPDM or silicone rubber.

Large internal sealing flap that allows a perfect adaptability to the face and an excellent seal.

Fitting with filters Series 230
