Respiratory Protection

AIRLINE BREATHING APPARUSES

A-TYPE APPARATUS

The device is a Type A respirator outside air intake, designed to provide breathable air for operators that need to get to work in tight spaces or environments with possible presence of toxic / harmful contaminants.

MAIN FEATURES

A-TYPE FRESH AIR BREATHING APPARATUS WITH FILTER:

- Perfect for application without fixed or limited (compressed air cylinders) compressed air supply.

For use without blower, consisting of:

- Durable and flexible breathing hose;
- Rotating connection piece with claw coupling;
- waist belt and shoulder strap in high-class leather;
- Strainer with steel cable;
- Snap hook and plug-in iron piece;
- Packed in dust-proof storage case.
- It can be used with full face masks with standard thread EN 148/1 (SELECTA - SFERA).

N.B. Masks and hoses to be ordered separately.
